(COMMENTS) TSS PROGRAM FY 53

Lyman B. Kirkpatrick, 20 Mar 1952 WFO 010112

(TS# 73407)

SECRET

25X1

Memorandum to DDP fr ADSO commenting on TSS Program FY 53 saying, most of the r&d is for OPC, it's too big and too ambitious and permits duplication. Recommends: survey to determine what other Departments and Agencies are doing in r&d to avoid duplication; program be limited to matters of immediate need and interest of operating offices; covert offices analyse their needs and provide guidance and priorities to TSS.

Comment; apparantly a compromise was reached prior to PRG action of 6 June, since ADSO's second memo was used as supporting Tab for the action. One source stated that de Florez program, Feb 52, intentionally contained everything but the kitchen sink to awaken the operators to what could be done.
